

2035 Transportation Plan Deficiencies - Bridge

Bridge Deficiencies	
(X)	Functionally Obsolete (49)
(X)	Structurally Deficient (37)
(X)	Good (208)

Structurally Deficient - Bridges are unable to support full weight limits without repair.
Functionally Obsolete - Bridges in good repair, however, not meeting capacity needs.
Note - Structurally Deficient bridges can also be Functionally Obsolete
